- **Hennepin County assistance cases:** Family must follow current published guidelines set up by Hennepin County. Benefit is contingent to the approval by the county. Current county funeral benefit of \$3000.00 will be paid directly to the funeral provider. Funeral provider or family will submit the application of benefit to Hennepin County. Upon acceptance, the family may be asked to contribute \$1400.00 which will be used for additional funeral related expenses, including cemetery plot, opening closing grave. Total funeral expenses can't exceed \$4400.00. If no grave is owned prior to death the cemetery will assign a grave in section 3 blocks 26 27 28 flat marker area only. Marker not included in cost. Payment of \$1400.00 includes grave (one right of interment) opening closing & perpetual lawn care & winter fees No Weekend Funerals or Overtime. Funeral Home will contribute \$200 for Vault-Less option, **Vault Less burial Option see back of form.**
- If application is denied by Hennepin County, please refer to current published cemetery general price list.
- **Prior to interment, cases of hardship must be discussed with the cemetery manager and it will be reviewed by the board of the cemetery on an individual basis.**

Mound Cemetery Association of Brooklyn Center Is a Non-Profit organization managed by a voluntary Board of directors.

Mound Cemetery is working to make burial more meaningful, simple, and affordable.

What is Natural Burial? Or sometimes referred to as (Green burial) is a way of caring for the deceased with minimal environmental impact. That furthers legitimate ecological aims such as the conservation of natural resources, reduction of carbon emissions, and protection of worker's health.

Vault-less Burial: No outer burial container (cement vault) is used. A maintenance fee will apply to vault-less burials see cemetery price list. A casket lowering device, tent & chairs can be ordered at an additional cost. The body is carried to the grave, and the committal service is performed at grave side. After this service 4 persons (are required) to lower with ropes the body into the grave. Earth is left at the grave site which allows family and friends the opportunity of placing earth and flowers directly in to the grave. This is the final act of love and respect the living can give the deceased. Casket will be covered by staff & family at time of burial, grave will be completely filled in later in day by cemetery staff.
